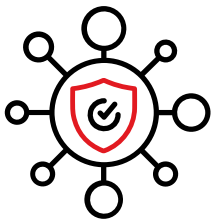
CANON'S PREMIUM PRINT SOLUTIONS FOR GOVERNMENT

uniFLOW online

Cloud first credentials

uniFLOW Online offers secure, flexible, and scalable print management, enabling central and local governments to stay ahead of technological advancements without the burden of managing local servers.

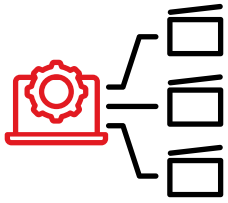


360-degree protection

Canon's imageRUNNER ADVANCE DX series multifunction printers offer '360 Degree Protection' — document security, device security, and network (cloud) security — to help protect you from malicious threats and accidental data leaks.

Beat budgetary pressures

Our advanced print management solutions offer fleet and cost management, providing visibility and control over printing expenses. With Canon, government agencies can streamline operations, reduce waste, and enhance productivity, helping you deliver value for money.



Fleet visibility and control

MyCanon Business lets you book and track service requests, track usage, relocate devices, view and pay invoices, order supplies and even track the arrival of your Canon technician. Accessible via a user-friendly online hub, MyCanon Business puts you in control.
